Music for People Workshop

Music For People workshops sometimes called "Finding Your Long Lost Musician" and at other times "Music for Self Expression" are energetic, physical and humorous experiences that are absolutely open to all, no matter what previous music background. A participant can be a total novice or a professional musician. All instruments and singing styles are welcomed. A piano and percussion instruments will be provided although we encourage everyone to bring their own instruments. Electric instruments are also welcomed and those playing guitars and electric pianos should bring amps.

The nature of the workshop is to play and improvise in small ensembles and for the most part the entire workshop presents how easy it is to become a musician who listens deeper, hears deeper and discovers ways to play with others in an easy way. **\$85.00 incl. H.S.T.**
